

Bank Repo Aircraft

Bank Repo Aircraft that we have sold for the lender.

Northern Jet Sales has been liquidating aircraft for lenders long before the recent financial disruptions. We have sold millions of dollars of lender distressed aircraft from piston singles to corporate jets!! In addition to the distressed aircraft we have sold for many lenders, we have also acted as a consultant providing market evaluations, appraisals, marketing assistance, location services and crew services for these lenders. The 'bottom line' is that Northern Jet Sales is connected to this market!!!

Following are some of the Bank Repossessions handled by Northern Jet Sales.
